

## Natalie Hamade - Sandy Springs, GA

Natalie believes whether it be creating a painting, making a doll, designing an interior, or preparing a five course meal, can be done with imagination, creativity, passion, and love. Her work is innovative, unique, fun, beautiful, sexy, whimsical, & yes, even creepy at times. She has been published, (paintings/dolls/interiors), also has won and placed in numerous competitions. The most rewarding aspect for her, is being able to share her methods and techniques with others. <http://creativecharacters.blogspot.com/>

Rag dolls are the foundation of cloth doll making. Natalie has found a way to make the past new again. She is teaching Sweet Pea, a vintage rag doll with a modern twist. This whimsical doll has a very contemporary look. In part it is due to the creative painting decorating the doll itself; the other part is the doll is most definitely looking back at you with an interesting gaze. That is because you will be making Sweet Pea with custom glass eyes and beautiful eye lashes. The eyes are beautiful but the eyes alone don't make the doll take on a whole new life. It is the features added with paints and watercolor pencils. You will learn how to properly mix acrylic and mediums to paint on cloth. Natalie will teach you how to enhance the features using watercolor pencils, glaze, pastels and inks
