

Kristin Morris Nut Cracker Makeover

CANCELED

**CHECK OUT THE
PETER RABBIT CLASS.
ON SUNDAY**

**Friday & Saturday #2D1
2 Day Workshop**

Remember those old “German” Nutcrackers with moving parts? They appear around the holidays such as Christmas and Halloween. They are not made just in Germany anymore and you can find them in all sizes. Kristen will show you how to use one of them as a base and remake it into your own funky character. Make a organ grinder with a monkey on his head or a magician with a rabbit popping out of the hat? Kristen has made cyclops, aliens, monsters and gremlins. Turn it into your own original character while learning how to sculpt appendages with Apoxie sculpt. Learn exactly how to best work with Apoxie Sculpt when sculpting hands and feet. Create different textures and add detailed adornments.

This workshop focuses on sculpting techniques and adding diverse elements in creating your individual character. Don't stop there! Incorporate sculpted cloths or add fur to the face or body, make a companion creature or animal for a whimsical flair. Finish your figure off with a new paint job. Kristen will teach painting techniques: dry brushing, washes and antiquing methods.
